DETAILED ACTION

Claims 1-9 are pending in the application and were examined on their merits.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a previous Office Action.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 2-8 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The language which has been added to claim 2 that states '(100 –300) to (30-90)....' is considered New Matter. The Examiner cannot find these amounts within the Instant disclosure as filed.

The language which has been added to claim 3 that states 'is at least 10:1' is considered New Matter. Again, the Examiner cannot find these amounts within the Instant disclosure as filed.

Applicant is asked to either point out in the original disclosure this information can be found, or to delete/amend these statements in order to overcome this rejection.

Claim Rejections - 35 USC § 103

Claims 3-9 remain rejected under 35 U.S.C. 103(a) as being unpatentable over Joanides (GB 2,228,411 A) in view of Lust (1974).

Applicant argues that the claim amendments overcome this prior art rejection.

However, it remains deemed that the variation of constituents in a known composition would have been obvious to one of ordinary skill in the pharmaceutical arts. it is well known to fluctuate the amounts of constituents in order to create different forms of the same composition such as moisturizing and extra moisturizing for example.

Thus, these claims remain rejected for the reasons of record.

Claim 1 remains allowed. Claim 2 is free of the art but is rejected under 35 USC 112 First paragraph *supra*.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
